

CCAL Dianne MunKittrick Wildlife and Nature Workshop
Oil (Acrylics Optional)
Friday and Saturday February 3rd & 4th

Enjoy spending two days painting wildlife and nature with an outstanding wildlife artist, Dianne MunKittrick, at our next workshop.

According to Dianne : "This workshop is designed to improve your artistry in painting animals and their natural surroundings. During this workshop you will learn how to properly use a photograph as a reference, how to use various techniques to achieve desired results such as rub out, glazing, scratch and many more. There will be a special emphasis on using edges, value, and temperature. While I will be demonstrating a painting and will have references available I encourage students to bring their own reference material of subject matter that they are interested in working on during the workshop. Your own photos are preferred."

She is really looking forward to our workshop and meeting us. Samples of her art attached or on her web site www.diannemunkittrick.com. A supply list and bio are attached.

The workshop will be held Friday and Saturday February 3rd & 4th at the Crooked Creek Recreation Center in the art room from 9:00 to 5:00. The cost will be \$115 and include lunch.
