

Workshop
with
Leslie Pratt-Thomas

**“Composition and Oil
Painting Techniques”**

When you stand across the room in your favorite art museum, what attracts you to one painting over another? Chances are the piece where the ‘shapes of color’ make a strong design will be the one to draw you in. Upon closer inspection that piece will need to have other enhancements to keep your attention.

This workshop will begin with discussion and some exercises in composition and then will move quickly to paint application and technique.
